

INVITATION

Lights Out...Production! Workshop

9th December 2010

Combining the latest technologies in machine tool automation, machine integration and visual software manufacturing solutions.

Key Speakers

Live Demonstrations

Workshops

Venue

ABB Ltd, Auriga House, Precedent Drive
Rooksley, Milton Keynes, MK13 8PQ

This seminar unites a wealth of experience in combining the latest technologies to combat the production challenges that the high precision manufacturing segment encounter every day. The demands for increased speed, accuracy, flexibility and quality whilst producing a wide variety of manufactured parts and small batches are not beyond reach, especially when your production capabilities of producing 24/7 unmanned, could really give you that competitive edge. Seiki Systems along with Neuteq Limited, ABB Ltd and Haas Automation, will demonstrate how investing in flexible automation and software communications significant advancements on the factory floor can be achieved.

Workshop Breakouts

Neuteq Limited: Live demonstrations of an Automatic robot cell showing component pick up, single point deburr, brush burr removal profile finishing with component load and unload which works without the need for operator assistance.

Haas Automation: Demonstrating a low cost compact cell using their standard MiniMill Vertical Machining Centre with an integrated ABB IRB140 6 axis robot with palletised loading and unloading allowing the machine to achieve the maximum flexibility with short batches or long running jobs but retaining the capability of manual loading if required and within the budget restraints of every machine tool user.

Seiki Systems: Visibility - Secure manufacturing control and process advantage with Seiki's integrated manufacturing execution solution using finite capacity scheduling and automated data collection to provide an immediate, visual and dynamic picture of the complete factory and works order lifecycle.

Programme of Events

- 10.00 am Arrival, coffee and tea
- 10.30am Welcome to ABB—Alan Spreckley
ABB's Channel Partner Manager
- 10.40am Leroy Garratt
Neuteq Robot Division
- 11.10am Keynote Speaker—Lights Out...Production
John Davis, Managing Director Seiki Systems
- 11.40am Refreshments
- 12.00pm Break Out Session 1
- 12.30pm Break Out Session 2
- 1.00pm Lunch/Networking/Robot Demonstrations
- 2.15pm Keynote Speaker—Remote Service
Alan Lashbrook, Remote Service Account Manager, ABB
- 2.45pm Break Out Session 3
- 3.15pm Guest Speaker—Svia
Svia Product and European Market
- 3.45 Closing Speech—Steve Kerr
Director of Neuteq Europe
