Example Return on Investment

Increased productivity  A  5%
Machine rate/hour  B  £65
Hours per day  C  15
Days per year  D  220
Number of machines  E  20
Savings per day  F  A x B x C x E = £/day
Savings per year  F x D = £/year

Savings per day  0.05 x 65 x 15 x 20  = £975
Savings per year  £975 x 220  = £214,500
